

58-minute door-to-balloon time

Choose well.

IF YOU EXPERIENCE A HEART ATTACK, you need to get blood flowing to your blocked artery—fast. Door-to-balloon time means how quickly we perform lifesaving balloon angioplasty or coronary intervention. We start the timer when you reach our door. Our care team can rescue your heart muscle in under an hour—more than 30 minutes faster than the recommended national goal. Quality care at just the right time. Referral & Information: 866-844-WELL, harrisonmedical.org/ReadWell
